

# REF. A0396 AMIRAL

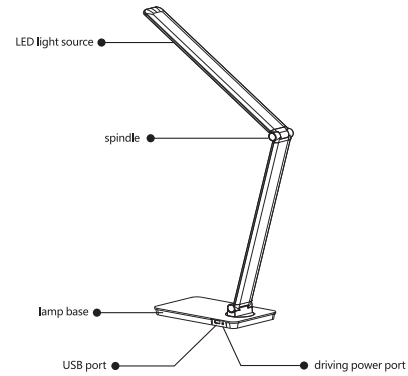

www.corep.com  
rue Radio-Londres  
33130 BEGLES

## Functions

- 12V low voltage DC power supply, low energy consumption
- design compared with incandescent lamp power saving efficiency can reach 90%
- Perfect simulation natural light, the light is bright and gentle, four light model adjustable, brightness can be adjusted.
- Using the high performance LED light source and component, lighting effects more better and bright.
- Products without fragile glass parts, safety more safety and easy.
- With USB interface for other equipment charging, such as mobile phone, MP3, etc
- Do not charge two phones or more phones at the same time.
- Do not charge Ipad or Ipod.

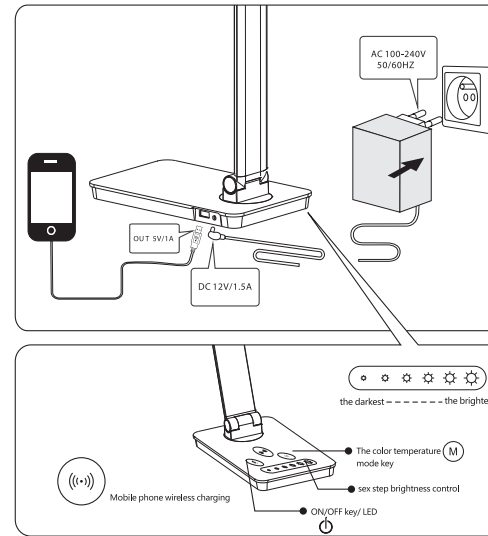

## Product component

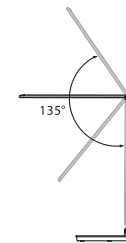

## Warning

- Do not disassemble the product, to avoid being electric shocked.
- Use original adaptor in order to maintain the normal operation of the product
- Do not use the product in high temperature and high humidity place.
- To avoid being damaged of eyes, please do not look in the LED lighting source by your eyes.
- When happen the below conditions, Please remove the power cord and stop using.
  - 1) Power cable and cord are damaged.
  - 2) Lamp socket be damped or rained
  - 3) Lamp socket occurred smoke, sparks and etc
  - 4) The led bead abnormal flashing or damaged

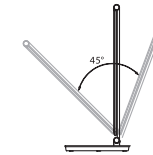

## operating instruction

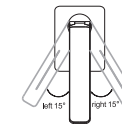

## Each component rotation range

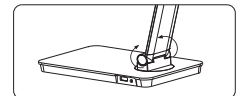

- lamp head accept range of activity:
- please press on the lamp base when u adjust angle
  - lamp arm up and down open angel is 135°

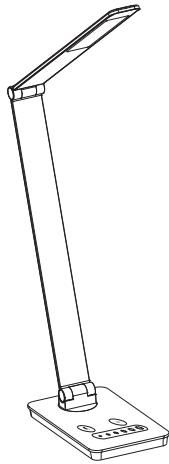

- lamp body accept range of activity
- At the bottom of the lamps and lanterns before and after the adjustable Angle 45°

- lamp body accept range of activity
- lamp body left and right rotate angle each side 15°
  - please don't rotate lamp body forced, don't crash lamp arm, in case damage lamp)

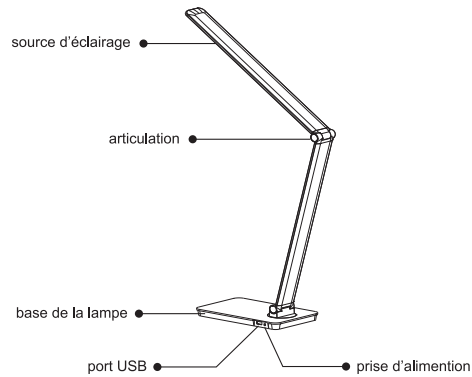

## Fonctions

- Adaptateur 12 V basse consommation.
- Parfaite simulation de la lumière naturelle, elle est brillante et douce. Quatre modes d'intensité et la luminosité peut être ajustée.
- Utilisation de la performance des lampes LED, effets d'éclairage progressifs et brillant.
- Avec port USB pour recharger smartphone, MP3, etc...
- Ne pas recharger deux téléphones ou plus en même temps.
- Ne pas recharger de tablette ou Ipad.

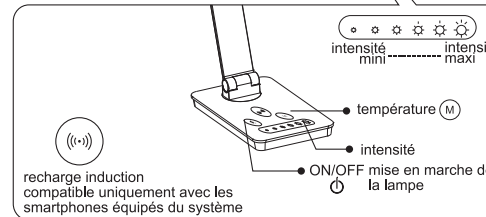

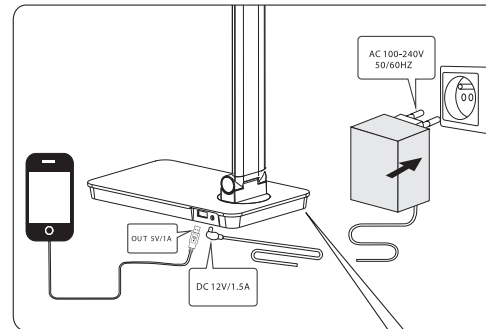

## Caractéristiques

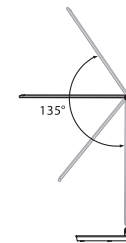

## Avertissement

- Ne pas démonter le produit, risque de chocs électriques.
- Pour maintenir le fonctionnement normal de l'appareil, ne pas utiliser d'autres adaptateurs que celui d'origine.
- Ne pas utiliser le produit dans un milieu humide ou trop chaud, et proche d'une source de chaleur.
- Pour éviter tout risque d'endommagement des yeux, ne pas regarder la source d'éclairage directement.
- Si les événements ci-dessous se produisent, retirer le cordon d'alimentation et cesser d'utiliser l'appareil.
  - 1) Le câble d'alimentation et l'adaptateur sont endommagés.
  - 2) Le PAD tactile est mouillé.
  - 3) Le PAD tactile dégage de la fumée, des étincelles, etc...
  - 4) La source lumineuse clignote ou est endommagée.

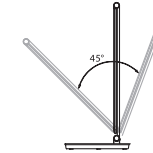

## Fonctionnement

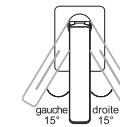

## Réglages

ajustement facile de la source lumineuse possible jusqu'à 135°

ajustement facile d'inclinaison possible jusqu'à 45°

axe stable avec rotation jusqu'à 15° de part et d'autre
